

## A New Home At The Old Address

**ALWAYS WELCOME—A beautifully designed screen/storm door built of the world's finest cedar, made to last even when slammed.**

(NAPSA)—Accessorize! It's no longer just a clothing statement. Homeowners looking to personalize their homes are doing it, too. The good news is that there are a number of ways they can add those personal touches without undergoing a major renovation.

For example, homeowners with a keen eye for traditional values will discover a variety of screen door styles designed to fit door openings from 32 to 36 inches. The screen doors from Vixen Hill are an inch and a half thick and use teak-pegged mortise-and-tenon joints, which are further reinforced with waterproof glue. The door designs incorporate a variety of architectural inserts to match a home's style.

Another nice touch are turn-of-the-century flower boxes, with sloping front and sides and with buttresses that support their weight. The boxes are also made of the world's finest cedar, renowned for strength and durability. Sizes are available in one-inch

increments and in colors including black, dark green, white and burgundy.

Both were created by Vixen Hill and have been inspired by the beauty and history of the company's native Pennsylvania countryside. They're part of a special line of pre-engineered cedarwood products of stirring beauty and sophistication.

Homeowners looking for a way to save on insecticides might enjoy a line of bat houses designed to last for decades. These are all pre-engineered and factory assembled

**BACK TO THE FUTURE—Though reminiscent of the 1900s, these lovely flower boxes are unsurpassed in quality and detail.**

using the world's finest western red cedar and copper roofing. They're not only beautiful to look at, but also keep bats from nesting in eaves, barns and roofs, while allowing them to keep the insect population around your home and garden in check.

Not surprisingly, these creations have captured the critical acclaim of design professionals all over the world. Other ways to give yourself a new home at the old address are modular gazebos, garden houses, pavilions and porch systems designed for simple one-day assembly.
