A Spray Of Serenity

(NAPSA)—Busy people can now take a break from everyday stress, with the help of an easy to use, travel-sized spray. Enthusiasts say Rescue® Remedy offers fast and convenient, all-natural stress relief.

YOGA IN A BOTTLE is how some users describe a natural stress reliever.

The mini bottle contains an original formula of five Bach® Flower Essences—Impatiens, Star of Bethlehem, Cherry Plum, Rock Rose and Clematis—that can create calming, positive energy, anywhere, at any time.

The spray is about the size of a lipstick tube so you can carry it in your purse or pocket for a quick pick-me-up when things get you down or just stress you out.

All natural, completely safe and free of side effects, it was developed over 70 years ago by Dr. Bach and is used in over 66 countries. Called Rescue Remedy, the spray can be found at natural health food stores and at GNC or by ordering directly from Nelson Bach USA, Ltd. at www.rescueremedy.com.
