

# Hints For The Home

## Adding Ambiance To The Bathroom

(NAPSA)—When it comes to adding a luxurious touch to your home décor, it pays to tap into your imagination and think sinks, and faucets and hardware.

A growing number of consumers are choosing to add an elegant touch to outdated bathrooms. A renovated bathroom provides a great bathing experience and greater relaxation. In addition, by renovating your bathroom, you could actually increase the resale value of your home.

From faucets to countertops to vanities, the latest designs provide luxury without extravagance and can breathe new life into the bathroom. Kitchen and bath remodels recoup 77% of their cost and are the two rooms that return the most on home investment dollars.

When creating a luxury-for-less bathroom, bring the outdoors in, and incorporate natural stone tile into the décor. For example, beauty, quality and value come together in a new line of granite vanity tops with attached under-mount porcelain sinks. These vanity tops from Pegasus® add a rich look to the bathroom—and can be installed in a few simple steps.

### Let ideas flow

A hot trend in bathroom design is the addition of elegant yet functional faucets and hardware. A variety of faucets and accessories are available in finishes such as chrome, brushed nickel and polished brass to provide an artistic touch representing modern or traditional styles to fit individual tastes.

To further update the look of your bathroom, as well as change the flow of the shower, add a stylish new showerhead. Varieties abound, with everything from extension arms to dual showerheads.

Available exclusively at The Home Depot and EXPO Design Center, Pegasus bath products add great style and many can be easily installed by any do-it-yourselfer. To learn more, visit the Web site at [www.pegasusinfo.com](http://www.pegasusinfo.com).
