

## An Angle On Angels

(NAPSA)—There are angels among us. That's what a new book, *Angel Watch: Goosebumps, Signs, Dreams and Divine Nudges*, (Health Communications, Inc., \$11.95), by Catherine Lanigan says. On rare visitations these angels take human form at a moment of crisis, then just as suddenly as they appeared out of nowhere, they vanish.

**One book says, there are "signs"—that can be "divine."**

interested in other unexplainable phenomenon.

Most importantly, she stresses that *Angel Watch* is not about angels. It's about human beings developing their own psychic, intuitive and paranormal skills in order to communicate better with angels.

*Angel Watch* is available at local bookstores, or can be ordered from the publisher at 800-441-5569, or online at the Web site [www.hci-online.com](http://www.hci-online.com).

The author shows how angels contact us through dreams, how goosebumps are validations that we are on the right track, and how spiritual visitations help steer people clear of danger.

Lanigan says this book is for anyone seeking a spiritual connection, or for those who are
