### **Athletic Shoes That Roll**

(NAPSA)—The hottest way to hit the pavement may be a pair of powerful, lightweight athletic shoes with a stealth wheel in each heel. Heelys are designed to allow the athlete of any skill level to walk, run and transition to a roll at a given moment. Using imagination, good judgment and the proper safety gear, riders can enjoy limitless exploration possibilities. If desired, remove the detachable wheel and Heelys instantly transform from high-speed vehicles to fashionable street shoes. A radical development in footwear, Heelys bring speed, function and style to alternative sidewalk transportation. Heelys are available through sporting goods and sports specialty stores. To learn more, visit [www.heelys.com](http://www.heelys.com).
