## Cleaning Tips

(NAPSA)—To keep your home in good shape, consider these maintenance ideas:

- Check your windows. Clean the glass and seals and inspect all windows. Fix worn weather stripping and recaulk inside and out if needed. Replace broken or chipped window boards or trim.

- Clean windows inside and out with a soft, absorbent towel designed for the task.

**Unlike paper towels, clothlike disposables can be rinsed and reused.**

- Check the exterior of your house and doors to see if they need to be painted. If so, you can clean your tools with a soft, absorbent, clothlike towel, such as Scott Rags in a Box, which is durable and designed for fast and efficient cleanup. Unlike paper towels, clothlike disposables can be rinsed and reused.

- Clean spills off the garage floor. As soon as oil spills, place a clean, disposable and absorbent shop towel, such as Scott Shop Towels, on the floor to absorb the spill—but don't rub, as that pushes oil into the concrete.

To help with all this cleaning, clothlike disposable towels previously used for such messy jobs as house painting and changing auto oil are readily available to homeowners. They can now be found in the cleaning aisles of Home Depot and other home improvement and hardware stores.
