Cool New Wireless Gadgets Are Hot Items For The Holidays

(NAPSA)—Wireless devices offering 3-D gaming, digital photography and convenience are among the most desirable gadgets for the holidays.

GAMING

For those that want quality 3-D gaming while on the go, the

N-Gage QD

N-Gage QD game deck from Nokia is a compact device with a hot-swappable multimedia (MMC) slot for instant gaming, 10-hour battery life, bright screen, powerful smart phone features and the new N-Gage Arena Launcher application for immediate access to the online gaming community. Gamers will be able to play all of their favorite N-Gage titles, connect to gamers around the world over mobile networks via the N-Gage Arena, and take part in close-range mobile multiplayer gaming via Bluetooth wireless technology. Hot N-Gage games this holiday season include Spider-Man 2, Pathway to Glory, SSX Out of Bounds, Pocket Kingdom, FIFA 2005 and Asphalt GT.

DIGITAL PHOTOGRAPHY

Globally, imaging phones have already surpassed traditional digital cameras in terms of sales and are making rapid strides in the quality of the image. The Nokia 7610 handset is the most comprehensive imaging phone on the mar-

ket today. This mega-pixel camera phone offers complete imaging capabilities including capturing, printing, storing and sharing photo-quality images. It can also record up to 10 minutes of video, add special effects such as music and text, and send video clips right from the phone. The Series 60 Platform means this sleek phone is not only beautiful but also smart—offering a wide range of smartphone functionality such as mobile e-mail, calendar and contacts with PC synchronization.

The Nokia 6230 phone is compact in size, but big in features. The tri-band GSM phone offers multiple connectivity options via EDGE and Bluetooth wireless technology, a removable multimedia card, an MP3 player as well as an integrated VGA camera to capture pictures and videos.

Keep your digital memories organized and easily accessible with the Nokia Image Album. With a 20 GB hard disk drive, you can store digital images, video clips and messages, as well as view, share, organize and edit on a TV screen using a remote control.

The Nokia Image Frame is a 6.7 x 5.1 inch stylish picture frame that displays digital images. It can

receive images over the air via MMS (multimedia messaging service) or infrared. The Image Frame stores up to 50 images and can display a single image or a slideshow.

CONVENIENCE

With the Nokia Headrest Handsfree, phone calls can be made and received without holding the mobile phone or dealing with

lots of stray wires. The ergonomic design, superior audio quality and small size make the use of this handsfree device easy and unobtrusive. It offers a built-in microphone, speaker and detachable headrest unit that can be mounted on the headrest bars of a car's front seat.

No more fishing for the phone with the Nokia Advanced Car Kit CK-7W. The Nokia Advanced Car Kit CK-7W gives users a choice between placing their mobile phone in a mobile holder or leaving the phone in a briefcase or handbag and connecting via wireless Bluetooth technology. With either option the phone can be operated using a remote control button. Remote functions include answering or ending calls and adjusting volume. The Nokia Advanced Car Kit delivers excellent audio quality in handsfree operation.
