

Cruises: Relax And Enjoy The Ride

(NAPSA)—There's a reason why cruising has always been popular with the rich and famous—it's a magnificent way to travel! Time doesn't stand still on a cruise, but it does slow down to a relaxed pace that lets you enjoy life's little luxuries, like a well-appointed room that keeps things simple and attentive service that anticipates not only your every need, but your heart's desires, too.

Experience a luxuriously carefree vacation.

Savor the spaciousness of a full-scale luxury liner offering all the accoutrements of a floating resort out on the open seas with activities to gratify every family member. Or relish the romance of a more intimate sailing vessel that navigates the less-traveled passageways of charming tropical islands.

For a customized experience, American Safari Cruises offers unstructured interisland cruises in Hawaii aboard a 36-guest luxury yacht beginning October 2011. In Tahiti's Society and Tuamotu Islands, Dream Yacht Charter lets you chart the course of a four-cabin luxury catamaran.

And with about 70 percent of the Earth's surface covered by water, cruises go everywhere—Hawaii, the Caribbean, Tahiti, Fiji and the Cook Islands, just to name a few.
