

Dating Secrets Revealed

(NAPSA)—If your dream dates keep turning into disasters or you can't decide whether to commit or quit, you may be ready for some sage advice.

Finding words of wisdom is easier than you might think. The best advice from hundreds of successful singles (and marrieds) has been pooled into a new Hundreds of Heads Survival Guide, *How to Survive Dating* (Hundreds of Heads Books, \$12.95).

The book includes hundreds of first-person stories and advice regarding the most fretted-about dating topics, including where to find that special person, handling first-date jitters, and plotting the course of the relationship. Not surprisingly, there are many special tips on today's phenomenon of Internet dating. The stories are often funny and always instructive—and some may even sound a bit too familiar.

Reading *How to Survive Dating* is like having a big circle of friends in one room offering their hard-earned advice about the toughest dating dilemmas. From the first kiss to knowing when it's time to say *I love you*, this book can help you avoid the headaches and heartaches of dating.

How to Survive Dating is a must-read for singles and is now available at bookstores. Visit www.hundredsofheads.com to find dating stories or share your own.
