Couples Captivated By Dolphin Discoveries

(NAPSA)—Couples can experience captivating dolphin encounters in their natural habitat, swim with dolphins in a marine park, explore the uninhabited Shell Island and delight in the original romantic beach destination that has lured generations to the “World’s Most Beautiful Beaches.”

Located only five minutes from Edgewater Beach Resort, guests find a sequestered paradise at the 1,260-acre St. Andrews State Recreation Area, surrounded with rolling sand dunes, woodlands, marshes and the sparkling green Gulf. A quick 10-minute ferry ride from the park takes guests to the secluded Shell Island—home to one of the world’s highest concentrations of bottle-nosed dolphins. A natural, undeveloped barrier island (accessible only by boat), Shell Island seduces couples with the natural wonders of a private paradise. At the Island, couples enjoy an enchanting day of snorkeling in the emerald green Gulf among dolphins and rainbow-hued fish, secluded sun bathing on sugary white sands and walking hand-in-hand on the beach.

At Gulf World Marine Park, guests can experience their “first kiss”—with dolphins that is. Couples get up close and personal with porpoises, learning the commands that instruct dolphins to flip, twirl, sing and laugh. Guests even take a swim around the pool while holding on to the dolphin’s

dorsal fin. The park also features marine shows set to amusing music and displays a nightly laser light extravaganza.

Back at the resort, couples can rekindle romance strolling hand-in-hand on the half mile of private Gulf shores, catching glimpses of dolphins in the surf and surrendering to spectacular sunsets. Poised Gulf-front along Panama City Beach, Edgewater Beach Resort offers relaxing spa treatments such as a Massage for Partners lesson in a private treatment room or a Parisian Body Polish, exfoliating the skin with real crushed pearls. Active couples also have access to 36 holes of golf, 11 tennis courts, 12 pools and a fitness center with state-of-the art equipment.
