

70 WORDS, 30 SECONDS

EYE ON HEALTH

BY AGE EIGHTY, MOST PEOPLE HAVE DEVELOPED CATARACTS. THAT CAN MEAN BLURRY VISION, FADED COLORS, DIFFICULTY SEEING AT NIGHT, OR DOUBLE IMAGES. THE GOOD NEWS IS, CATARACT SURGERY CAN RESTORE YOUR SIGHT. MORE GOOD NEWS: PEOPLE OVER AGE SIXTY-FIVE MAY BE ELIGIBLE FOR MEDICAL EYE EXAMS, AT NO OUT-OF-POCKET COST, THROUGH THE AMERICAN ACADEMY OF OPHTHALMOLOGY'S EYE-CARE AMERICA PROGRAM. TO SEE IF YOU OR A LOVED ONE QUALIFIES, VISIT E-Y-E-CARE-AMERICA--DOT--ORG.
