

Gift Giving Made Easy

Great Gift Ideas for Everyone on Your List

(NAPSA)—Shoppers are discovering that a great way to save time and money during the holidays or other gift-giving seasons is to go to local stores that offer a wide variety of original offerings.

Here's a look at a few affordable and unique gadgets and accessories for anyone on your list that may be found at local RadioShack stores:

- When it comes to home entertainment, people who want high quality sound but have limited space (such as dorm rooms and studio apartments) can enjoy surround sound from a single speaker with Point Source Home Theater in a Box. That great sound can be put to use with a fun Handheld Karaoke Machine. A hit at parties, it comes pre-loaded with songs, can be easily plugged into any TV and features a variety of special effects.

- For the young (and the young at heart) there's a remote controlled car with serious stunt capability, the Catapult Stunt RC. It can travel up to 900 feet a minute, jump vertically up to two feet, and up to nine feet forward at the press of a button. For extreme sports fans, there's a Honda CR250R Motocross RC Bike featuring Ricky Carmichael. This cool bike features a miniature version of the motocross superstar and can bounce back from a wicked crash thanks to its internal gyros stabilizer. For the younger "drivers," there are ZipZaps Micro RCs with interchangeable parts and the XMODS RCs that feature tuner-inspired body styles, and offer unlimited possibilities for modifications.

Cool holiday gifts for everyone on your list may be found all in one place—the local electronics store.

- To pamper the ladies on your list, try a massaging bath pillow, a rolling foot massager or an aromatherapy sleep machine with pillow speaker and programmable timer.

- A gift that will really click with photography and travel buffs is the FlatFoto 2 Megapixel Digital Camera. The size of a credit card, it stores up to 200 shots and can be powered up while it downloads pictures onto your computer.

- Providing a present to please the small set can seem like child's play when you look to the remote controlled Child Guidance toys such as the My Learning Phone that helps teach numbers, shapes and colors, the 4-in-1 Puzzle Vehicle that can be turned into a plane, helicopter, car or submarine, and the Letters, Numbers & Shapes Buggy that helps kids practice their listening skills and learn the alphabet.

You don't have to go far to find these products and more. They're at nearby RadioShack stores and online at www.radioshack.com.
