Hotel Style At Home

(NAPSA)—For those who'd like their home to look like the hip hotel lobby they just visited, Chloe Warner, a rising star interior designer, shares some of her living room design and modern decor tips.

- Create a unique seating group by mixing and matching colors, patterns and forms. She really likes the Botanist Epigram Bench. Its slate gray color can be paired well with an Eames Molded Plastic Rocker Chair in orange and a Mademoiselle Chair in Dolce & Gabbana's leopard-print silk upholstery. All are available at www.zwello.com.

Fullered Impressions Tall Table Lamp (www.croftandlittle.com)

- Playful and daring, the Fullered Impressions Tall Table Lamp (visit www.croftandlittle.com) is perfect atop a side table—it's affordable and adds a splash of color to the room.

- Instead of one major pendant fixture, try grouping three smaller fixtures such as the Moooi Non Random Lights (available at www.YLighting.com). These can be hung at different heights over a table or in a foyer leading into the living room.

Ms. Warner's work can be seen in some of California's finest homes and restaurants and was recently featured in Domino magazine.
