Packing Tips Make Travel Easier

(NAPS)—Travel can be easier if people follow a few simple tips that take the hassle out of packing, luggage experts say.

“By packing smart, you can take everything you need and still have room for all the great things you’ll buy on your trip,” said Anne DeCicco, president of the Travel Goods Association of America.

“Newer features in today’s luggage, such as special wet pockets and suit sections, help travelers stay organized on the road,” said Anne Fleming, marketing director of Atlantic Luggage Company, the world’s second largest luggage seller.

Atlantic, which makes the expandable *Eternity 3* collection featuring the innovative Laundry Locker™ for worn or wet clothes, offers a complete list of packing tips. Here are a few of them:

1. Make a list of everything you need.
2. Don’t overpack.
3. Wrap anything that can wrinkle in a leftover plastic bag from the drycleaner, which prevents wrinkles.
4. Mix your family’s clothes throughout each suitcase, just in case a bag is lost.
5. Take all valuables, passports, documents, jewelry, money and medications with you on board.
6. Use a suitcase that can be expanded.
