## **Petite Perfect Style**

(NAPSA)—Finding clothes that fit and flatter is always a challenge but it's one that can be harder for the almost 50 percent of American women who fall under the average height of 5 ft. 4 in. It goes beyond a shorter pant or sleeve length for the petite woman. Many of the garment measurements must be aligned differently. Fortunately, designers have noticed that one size does not fit all. To offer snappier alternatives, some designers such as Liz Claiborne now cater to a wider variety of body shapes and sizes. Liz Claiborne Petites is precisely proportioned with the petite-size customer in mind. This convenient shopping option offers stylish looks for a specific body type.
