## Quicker Trim

(NAPSA)—When it comes to do-it-yourself lawn care, the results are generally reflective of the tools you use. The easier they are to start and the more comfortable their operation, the more likely you are to take them out of the shed and do the work that's required to keep the grass green and looking great.

One example is the Straight Shaft String Trimmer from Ryobi. In addition to a wide cutting swath and long shaft for hard-to-reach areas, this lightweight unit features a clean and powerful two-cycle engine with advanced design

**New outdoor power tools with electric starters are easier to use due to more efficient operation.**
