

TIPS ON TRIPS

Rail 'n' Drive

(NAPSA)—Europe-bound vacationers can do all their travel easily and efficiently by combining trains and rental cars to get where they want.

Trains cover the longer distances and rental cars (available at most rail stations) explore the out-of-the-way places. You can use the car days when you need them so you can really customize your vacation.

Most railroad stations have handy rental cars available within a block or two.

Rail Europe, the leading North American source for European rail and related travel, has a wide assortment of Rail 'n' Drive tickets and railpasses that work across the continent as well as the U.K.

Select the number of rail and car travel days and the type of car you want. A Rail Europe France Rail 'n' Drive, for example, gives you any four days of unlimited train travel throughout France plus two days of Avis or Hertz economy car rental with unlimited miles in a one-month period for \$245 when two travel together. Extra rail and car days are available.

Call Rail Europe at 1-888-382-7245 or check the Web www.raileurope.com. Buy your Rail 'n' Drive before you leave: it's not available in Europe.
