## Smart Shoe Is Step Forward For Women

(NAPSA)—If you're the average fashion-forward woman, your closet not only contains approximately 19 pairs of shoes, you will soon have one more to add to your collection.

A shoe has been created that is reported to be preprogrammed to fit your foot perfectly the first time and every time. Called The Easy Spirit® Smart Shoe, the comfort and smart style secret is Leather with LYCRA®. This creates freedom of movement while maintaining a secure and comfortable fit. As your foot stretches, the leather with LYCRA® enhanced uppers stretch too, for added comfort. The Smart Shoe highlights smart style for today's woman with the benefits of no break-in-period, superior memory, and unmatched flexibility.

"Shoes with this new material not only look better but feel better, explains Linda Kearns, Global Brand Manager for DuPont LYCRA®. "The addition of Leather

**SHOES TO WATCH (AND WEAR) are those that need no break-in period, are beautifully styled and fit perfectly every time.**

with LYCRA® gives women what they want most, a perfect fit with the benefits of comfort and style."

Women will find eight different styles in the collection from slings to slides, and dress to casual silhouettes in a variety of colors. The shoes, which retail from \$59 to \$75, have just made their debut at 185 Easy Spirit stores nationwide. For more information, you can call 1-888-EASY 772 or visit the Web site at [www.lycra.com](http://www.lycra.com).
