**A raw, riveting and revealing look at how black men define themselves in society and the world.**

With raw honesty, the contributors share experiences only their brothers can truly understand—from sex to spirituality, family to justice, money to power—and work to collectively heal the spirit and awaken a better understanding of the black men in all of our lives.

The over 80 contributors include Obba Babatunde, Mayor Willie Brown, Isaac Hayes, Antonio “L.A.” Reid, and Busta Rhymes. The book details the unique journey of the black man as he struggles to define himself in society and in the world.
