### Sport Utility Of The Year

(NAPSA)—AND THE WINNER IS—After conducting ten rigorous tests on 14 vehicles, *Motor Trend's* editorial staff selected the GMC Envoy as the “2002 Sport/Utility of the Year.” According to the judges, no other new or substantially upgraded sport/utility vehicle addressed our criteria and testing as effectively as the new GMC Envoy. “It offers solid performance, good off-road agility and ability, work load and tow capacity, quietness and smoothness on highway chassis, pleasing handling, high feature content, a livable interior, premium design image and reasonable value,” said Editor-in Chief C. Van Tune. Now in its fourth year, the annual *Motor Trend* “Sport/Utility of the Year” has become the most important and prestigious award in the SUV category.
