## Stocking Stuffers For Gadget Lovers

(NAPSA)—Finding the ideal stocking stuffer can be quite the challenge. Fortunately for technology lovers, there are many choices this season. From security devices to mobile accessories, technology gadgets are a perfect fit in this year's holiday stocking.

Give the gift of security and convenience! The Secure Touch Optical Mouse provides unprecedented security by protecting information saved on the computer. Available for under \$100 from Fellowes, Inc., a global leader in mobile, computer and consumer electronic accessories, the mouse uses advanced biometric technology allowing fingerprints to be read and eliminating the need to remember passwords.

Satellite radio, a subscriber-based service with up to 100 radio channels of uninterrupted, near CD-quality music, is the latest in radio technology and sure to be a hot item this holiday. Body Glove® offers a protective case for XM SKYFI™ satellite radio receivers that's a perfect stocking stuffer for new subscribers. The case is under \$10 and features a Velcro closure.
