Timeshare Facts

(NAPSA)—Current trends reveal that timeshare occupancy is outpacing hotel occupancy by over 20 percent, according to a study by Ernst & Young.

To see if a timeshare vacation is right for you, check out this checklist:

From mountain chalets to beach-front resorts, timeshares offer destinations around the world and have a satisfaction rate of 85 percent.

- Do you want more bang for your buck? A typical family vacation in a hotel tends to cost more than one in a timeshare.

- Do you like the comforts of home? With a timeshare, you have plenty of space for the family to relax and spend time together. The units typically feature two bedrooms, two bathrooms, a living room and a full-sized kitchen.

- Do you want to take the hassle out of planning each vacation? Timeshares can mean no surprises.

- Do you value taking a vacation? Doctors say taking time off is good for you. Timeshares help you commit to a regular vacation, plus you may be able to trade resorts.

The American Resort Development Association says many of the more than 5,000 timeshare resorts in 100 countries have rental programs that let you try them out.
