

HOLIDAY GIFT IDEAS

Top Holiday Gifts for Tech Lovers

Your tech-savvy friends and family should take an instant liking to the latest devices from Motorola.

(NAPS)—This holiday season, take gift-giving to the next level with the latest must-have tech from Motorola.

With the moto z² family of smartphones and moto mods, you and your loved ones will be able to do things you never thought possible with a smartphone. Those who are constantly on-the-go can have an Alexa-enabled digital assistant by their side. Adventurers can have a 360° camera to capture the sights from every angle. Video game lovers can transform their phone into a full gaming console. And for those who can't keep up with their cords, snap on a wireless power pack and recharge quickly.

No matter who is on your list, Motorola has something for everyone with their latest devices:

- **For those who move at 100 mph:** With its guaranteed shatterproof display featuring Moto ShatterShield technology, moto z² force edition ensures you won't have to worry about cracked screens anymore.

- **For those with wanderlust:** Help them capture all the sights in a snap with the 360 camera moto mod, which allows you to take interactive 4k video, audio and images from every direction. And with the Polaroid Insta-Share Printer, you can quickly snap and edit photos, then print right from your moto z smartphone.

And for the newly-turned-teenagers who keep bugging you for the latest tech, you can gift without spending a fortune. The budget-friendly moto e⁴ plus features a fingerprint sensor, a vibrant HD display, smooth metal finish and a battery that charges within minutes. For another option, the moto g^{5s} plus delivers the size and precision-crafted look that you'd only expect to see on a premium device.
