## Viewers Can Enjoy TV When And Where They Want

**A new viewing service called TV Everywhere offers convenience and freedom by making it possible for you to watch the programs you want, when you want, on the device of your choice.**

(NAPSA)—Good news for TV fans who find their hectic schedules interrupt their TV viewing schedule. The nation's TV service providers and networks have partnered to bring their TV subscribers "TV Everywhere." You no longer have to fret over missing your favorite shows because of a canceled flight, an extended commute or a delayed doctor's appointment. The TV Everywhere viewing experience offers the convenience of watching TV where you want, when you want, on the best screen available at the time. Start by going to your provider website or download the apps, sign in, and enjoy watching TV on

a mobile device, inside or outside the home.

Best of all, TV Everywhere is available at no additional cost, since it's already part of your current cable subscription. So if you're standing in a long line, sitting in a waiting room or just lost the battle for the living room remote, remember, you could be watching TV!

Catch up on the latest episodes of a TV series, watch the big game, access your children's favorites—in the moment, live or on demand, on any device with a broadband connection. To learn more, go to your TV service provider website or visit [www.youcouldbewatching.tv](http://www.youcouldbewatching.tv).
