

Well-Rounded Gifts

(NAPS)—Looking for a well-rounded gift? Harmony Kingdom's Roly Polys may be just what you're searching for!

First introduced in 2000, the Roly Polys are actually miniature boxes, measuring about 1¼" all around, and shaped like rotund, chubby animals. At first it might seem that the members of the Roly Polys don't have much in common, a cross section of animals from a

cuddly baby seal to a majestic eagle, but they all share a jolly character and subtle humor. Each is also named in homage to those who have lived larger than life, both in character and in stature. With the Roly Polys, Harmony Kingdom calls them into the spotlight, from Winston the bulldog to Pavarotti the penguin, and pays tribute to their enormous talents and impact.

Bringing the Roly Polys to the stage is English carver Adam Binder, and the miniatures shine with the artist's delightful in-depth study of the unique character and form of each creature. These chubby animals also serve the practical purpose of being functional boxes with secret compartments. Anyone who picks up a Roly Poly will soon become a fan. With the look and feel of antique ivory, the Roly Polys are inviting to the touch and feel comfortable held in the palm of the hand.

Roly Polys releases will be even more exciting since a low number of each style will be produced as solid-bodied figurines instead of treasure boxes. Known as "Hard Bodies," the solid versions are sure to be highly sought after by collectors.

Suggested retail price for each individual Roly Poly is \$25.00. Harmony Kingdom Box Figurines are available at select authorized retailers worldwide. To locate a dealer near you, visit www.HarmonyKingdom.com.
